The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-6, 9, and 10, are rejected under 35 U.S.C. 102(a) as being anticipated by Yamamoto et al (US 2003/0148136 A1).

The rejection is maintained as stated in the Office Action mailed 10/15/07, and as stated below.

Yamamoto et al discloses an electronic component made from primarily organic material, comprising a substrate 3/20 having a depression, at least one organic electrical conductor track 9/23 for interconnecting electrical components, in which the at least one electrode is made from conductive material and applied to a supporting surface, the surface of which is modified and/or roughened by a pulsed laser treatment in a roll-to-roll process (Abstract, Figures 1, 10, and 15, Paragraphs 0036, 0037, 0051, 0052, and 0058, and claims 14-16). Yamamoto et al discloses an electronic component in which at least one organic conductor track 9/23 is arranged in a depression of a lower layer 5, wherein the depression has been produced by means of a pulsed laser, having steep walls, sharp contours and a rough bottom surface (Abstract, Figures 1, 10, and 15, Paragraphs 0036 and 0037, and 4, and claims 14-16).

Applicant argues that Yamamoto et al does not teach a non-metal substrate. However, the claims are not so limited.

Applicant argues that Yamamoto et al does not teach that the depressions and copper particles deposited therein do not form electrodes or conductor tracks. However, Yamamoto et

al discloses conductor track 9/23 arranged in the depression of substrate 3/20 (Figures 1, 4, 10, and 15).

Claims 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joannie García whose telephone number is (571) 272-1861. The examiner can normally be reached on Monday through Friday.
